

## **POSTCARD AND JOINT PUBLIC HEARING – QUESTIONS AND ANSWERS**

**Knox County's Joint Public Hearing will be held on Monday, September 26, 2022 at 6:00 P.M. at the Bloomfield Community High School, West Lobby, 311 E Benton ST, Bloomfield NE**

### **Why am I receiving this postcard?**

Counties are required to send out this postcard due to legislative bills that were passed by the Nebraska Legislature during their 107<sup>th</sup> Session (2021-2022) – specifically, LB644 as amended by LB927. The postcard is triggered by the tax requests of certain political subdivisions – cities, counties, school districts, and community colleges – when those requests exceed their “allowable growth percentage” (i.e. their property tax request exceeds their property taxes from the previous year by over a certain amount).

### **What is “allowable growth percentage?”**

According to Nebraska Revised Statute §77-1631, allowable growth percentage means a percentage equal to the sum of (a) two percent plus (b) the political subdivision's real growth percentage.

Real growth percentage means the percentage obtained by dividing (a) the political subdivision's real growth value by (b) the political subdivision's total real property valuation from the prior year.

### **Is this a tax bill?**

No, it is not a bill. The postcard is intended to inform the property owner of a potential property tax increase/decrease to certain levies of their property tax bill for next year, and to inform the property owner of the joint public hearing those political subdivisions need to participate in before they can submit their adopted budget for next year.

### **How does this impact the property taxes that I already paid this year?**

This does not impact the property taxes you paid for this year. This postcard is notifying owners of estimated changes to certain levies within their property tax bill for next year.

Keep in mind, property taxes are paid in arrears. During the calendar year 2022, property owners paid their property taxes for 2021. During the calendar year 2023, property owners will pay their property taxes for 2022.

### **How do I tell if my property taxes will increase?**

This information is on the postcard. The far-right column shows the *estimated* change in your property taxes, if any.

### **How are property taxes calculated?**

The tax rates for the operations of all functions of county government, school districts, cities, community colleges, natural resource districts, fire departments, SIDs, and other local authorities are determined by dividing the political subdivision's annual budget tax request by the current total taxable value within their boundaries. The tax rates are expressed as a percent of \$100 dollars of taxable value.

Property taxes are determined by multiplying the property's taxable value by the tax rate for the tax district which the property is located. The tax district for a property includes various local authorities, which levy property taxes for services.

**I have a homestead exemption. Does this change my homestead exemption?**

No, the information on the postcard is determined before any property tax exemption or tax credit has been calculated. The final determination of homestead exemption status is made by the State of Nebraska in late October. If you qualify for full or partial homestead exemption, that status will be reflected in any property tax bill you receive in December.

**Are these political subdivisions voting on their tax rates at this joint public hearing?**

No. At the joint public hearing a representative from each political subdivision required to participate will give a brief presentation on that political subdivision's intent to increase its property tax request by more than the allowable growth percentage and the effect of such request on the political subdivision's budget, but there will not be any votes taken after the presentation.

For the political subdivisions participating in this joint public hearing, their participation in this joint public hearing is required BEFORE the political subdivision can file their adopted budget statement. Then on a subsequent date after the joint public hearing, the governing body of each participating political subdivision will pass an ordinance or resolution to set such political subdivision's property tax request.

**If I attend the joint public hearing, will I have an opportunity to speak?**

Yes, there will be a public comment period after the political subdivisions have finished presenting. Those speaking from the public will be limited to three minutes (the County Clerk [who is charged with organizing this public hearing] may adjust the time limit depending on how many speakers are present).

While the public comment period is the opportunity for members of the public to speak during the hearing, *there will not be back-and-forth discussion between members of the public and representatives from the political subdivisions.*
